

Your complete **eye drop** family

AEON

New eye drop family for use
before and after eye surgery

THE AEON STORY

Recently published research suggests that dry eye may be a hidden obstacle to some patients' satisfaction with their cataract surgery.¹

That's why we created **AEON**, a new eye drop family which aims to help patients manage their condition and improve their post-surgical outcomes.

At Rayner, we understand the challenges that your patients can experience – **AEON** products were created specifically to help with ocular surface disease, before and after surgery.

As you'd expect, all **AEON** products are preservative and phosphate free.*

1. Eurotimes Supplement February 2018: 'Managing Ocular Surface Disease to Optimise Surgical Outcomes'.

*AEON PROTECT is preservative free on contact with the eye. AEON featuring the Preservative Free Multi-Dose Ophthalmic Squeeze Dispenser. The 'Aptar' trade mark and the Aptar device Multi-Dose Ophthalmic Squeeze Dispenser are the property of AptarGroup, Inc

AEON

PROTECT PLUS

Designed to improve patient outcomes before and after eye surgery, **AEON PROTECT PLUS** is stored in an innovative dropper device which enables the solution to stay sterile, without the need of a preservative. **AEON PROTECT PLUS** is also phosphate free.

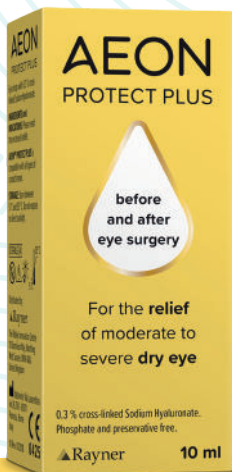

AEON PROTECT PLUS has a unique formulation, enhanced to provide an artificial tear for relief of moderate to severe dry eye.

BENEFITS:

- Cross-linked sodium hyaluronate 0.3 % which retains more water and has higher viscoelasticity than linear sodium hyaluronate to enable relief of moderate to severe dry eye.
- Provides longer lasting lubrication of the eyes.

**before
and after
eye surgery**

AEON REPAIR

AEON REPAIR has been designed with the ophthalmologist in mind. Stored in an innovative dropper device which enables the solution to stay sterile, without the need of a preservative.

AEON REPAIR is also phosphate free.

AEON REPAIR has active ingredients that are tailored to help improve patients outcomes following eye surgery.

BENEFITS:

- Sodium hyaluronate 0.15 % which lubricates and provides relief from dry eye.
- Enhanced with vitamins A and E.
- β -glucan which helps to moisturise the eye.

AEON

PROTECT

AEON PROTECT has been formulated to provide relief for mild to moderate dry eye. **AEON PROTECT** is phosphate free.

BENEFITS:

- Sodium hyaluronate 0.3 % with PEG 400 which provides long-lasting lubrication and relief from dry eye.
- Second generation preservative that keeps the eye drops sterile in the bottle, but once in contact with the eye dissipates into components naturally found in tears (Na^+ , Cl^- , O_2 and H_2O).

**anyone
with dry eye**

AEON

SODIUM CHLORIDE 5 %

AEON SODIUM CHLORIDE 5 % is a phosphate and preservative free hypertonic ophthalmic solution used for the temporary alleviation from symptoms associated with corneal oedema.

BENEFITS:

- One of the first to market that also contains both sodium hyaluronate and PEG 400 that create a soothing and lubricating eye drop.

**for corneal
oedema**
